OUR SERVICES

WATER DAMAGE RESTORATION SERVICES

Speed is crucial when dealing with water damage. The longer water damage is left to sit and not properly handled, the more damage it is likely to do. Pros responds quickly to your emergency to handle every facet of your emergency from cleanup to full restoration

ASBESTOS ABATEMENT

We ensure that all hazardous asbestos materials are removed safely and efficiently from your home or commercial building.

fully trained professionals

STORM

MOLD REMOVAL

Mold is everywhere. It can grow indoors & outdoors and it can appear on almost any surface that has been wet for 72 hours. Mold spores travel through the air including through heating and air conditioning systems. At any given time you likely have mold spores on your clothes and body. These spores are typically harmless, but once they contact water they can grow and quickly form colonies that allow them to thrive and spread.

RENOVATIONS

SMG is also ready to handle all general construction needs as well as emergency mitigation services and disaster restoration. With over 25 year experience, we are ready to provide the general contracting and renovation services you need to grow, change, or recover your business or home

MOLD

FIRE DAMAGE REPAIR AND RESTORATION

Fire can quickly cause serious damage to any building. Often fire damage includes other forms of damage as well including smoke damage and potentially water damage. Even a small fire can end up causing a large amount of damage. SMG Restoration Pros specializes in fire damage repair and restoration and all of the side-effects that come with it.

STORM DAMAGE CLEANUP AND RESTORATION

Storm damage can come in many forms. It may result in flood and water damage as well as actual physical damage to your home. From sealing off any damaged areas to prevent further complications to a full cleanup and restoration of your home
